Section 403(r) (6) Notification

Dear Sir or Madam:

In accordance with the requirement of section 403(r) (6) of the Federal Food, Drug and Cosmetic Act, **Leiner Health Products** notifies the FDA that it has begun using the following phrase and statement:

B Vitamins help the body produce energy. B Vitamins are responsible for various functions such as conversion and metabolism of carbohydrates, fats and protein, supporting blood circulation and the central nervous system, and aiding digestion. Vitamins E and C act as powerful antioxidants. Vitamin E promotes cardiovascular health by helping to protect LDL cholesterol from oxidation which may cause cellular damage. Vitamin C acts to protect cell walls against free radical damage which can harm DNA. Studies also show that Vitamin C helps support a healthy immune system. Ginkgo Biloba acts as an antioxidant to help protect brain cells from free radical damage. It helps improve blood circulation of oxygen and glucose to the brain for normal brain function. Ginseng is used to enhance the ability to perform physical and mental work. It has been used as a tonic to increase resistance to stressful situations.

on the following product:

Your Life® Advanced Multivitamin with Herbs

Very truly yours,

Leiner Health Products
